					Play Fucking Loud	1cd	£15		Wiener Club Of Spalding	

A message from our sponser... As many long-standing customers will know we have endeavoured in the past to hold the prices of our 2cd sets to £25. Unfortunately due to pressure from the evil galactic empire suppliers are now having to ship discs to us via more complex routes and this ultimately involves us in considerable additional cost due to extended shipping routes and customs duties (the penalty I'm afraid for living on an Island!). We had hoped to be able to make alternative and less costly shipping arrangements but this has not proved possible without increasing the risk of detection. Not all suppliers face the same problems and we are still able to obtain some titles via more direct routes - as a result the price of 2cd sets varies between £25 and £30 depending on our shipping-in costs. Hope that goes some way towards explaining the situation. As you will also be aware we now post Cd's without the Plastic Jewel Cases, (discs are posted in protective paper sleeves and packaging is protected by a cellophane wrapper) have recently moved all of our stock to a much smaller office so space is at a premium and without cases discs are also much more transportable in the event of having to make a hasty withdrawal. However we are aware that some folks are finding difficulty in obtaining Jewel cases, particularly the Slimline Doubles and Bulky Triples/Quads. If you are having problems we can heartily recommend COVERS 33 as a mail-order supplier of CD cases. They are very reliable, most obliging and the cheapest we've come across. Their telephone number is 01422 822 679.
